

## **POPULARITY OF DATE FORMATS**

Using the following link: [https://en.wikipedia.org/wiki/Date\\_format\\_by\\_country](https://en.wikipedia.org/wiki/Date_format_by_country), I was able to assume that the most popular order style is day-month-year, being used by most of the world. The formatting is too varying to analyze. In use are many forms of “dd mm yyyy”, “dd/mm/yy”, “d. m. yyyy” and many others.
